A Little About Us...

DaVinci Technologies is a one-stop shop for your digital printing needs, supplying everything from adhesive backed vinyl, laminates, window perf and environmentally friendly print media to laminators, trimmers and cleaning supplies. DaVinci continues to provide exceptional customer service and well-known brands such as: MACTac, conVerd, ClingZ, Continental Grafix, GFloor, Royal Sovereign and more! With warehouses in CT, FL & CA DaVinci is able to serve customers quickly nationwide.

We carry products from only the top manufacturers...

For a complete product list, visit www.DaVinci-Technologies.com

Why Choose DaVinci?

1. Great Customer Service
2. Great Pricing
3. Wide Selection of Products
4. Knowledgeable Staff
5. Fast Order Processing

Eco-Friendly

DaVinci Technologies is FSC-Certified (RA-COC-005902) and supplies a complete line of products that meet this certification and that are also 100% recyclable. With an eco-friendly conscience we are always adding new environmentally friendly products to our portfolio to further save the planet's resources.

G-Floor Graphic® Ultra Print Media

Don't have a printer large enough for the 75mil material? Not to worry, with the new G-Floor Graphic Ultra you can print with most wide format printers. Now in a thinner, 0.035" format, G-Floor Graphic Ultra has the same longevity and "Drive On" durability as G-Floor Graphic. It is best suited for short term applications such as traditional floor graphics, counter mats, wall applications, and mouse pads. G-Floor Graphic Ultra provides you with an impressive durability at and economical price point.

- Repositionable, reusable, recyclable
- Used with or without adhesives
- Perfect for vehicle and heavy foot traffic
- Slip and tear resistant
- 54" rolls
- Wood grain surface pattern
- 5 year durability

APPLICATIONS:

Ultra - Printable 35 mil (.035 in.) thickness		
Item #	Size / Pattern	List Price
CS35WG5425CC	54' x 25' Wood Grain	\$219.38

G-Floor Graphic® Absolute White

Absolute White is designed as a first surface print product for those without white capabilities. Suitable for solvent and UV inks, Absolute White is a 75 mil base product with 100% through color. Its anti-chalking, all weather formulation allows for extended outdoor life. Ink adhesion has proven to be excellent to this material. Absolute white can also be printed and submerged into pools, fountains and coin ponds. With the addition of a Clear Coat, first surface print durability can be extended to match the life cycle of the base material.

- Repositionable, reusable, recyclable
- 75 Mil material
- No adhesives necessary
- Wood grain surface pattern
- Display and water feature concepts
- Slip and tear resistant
- First surface imagable
- Roll and sheet formats
- Recyclable

APPLICATIONS:

Floor

MACtac® Lustex® Surface

The low gloss texture helps eliminate glare and provides a very unique and pleasing viewing surface. This product can be used as an overlamine for indoor as well as outdoor applications. IP6000 not only provides protection from abrasion and moisture, it also helps retard color fade caused by ultraviolet (UV) light exposure.

MACtac® IP6000 Lustex® 15

15-mil polycarbonate film with a special "Lustex" surface

- 15.0-Mil textured lustre polycarbonate finish
- Eliminates glare
- UL Listed for wall covering flame resistance

APPLICATIONS:

Floor	Trade Show
-------	------------

Item #	Roll Width x Length	List Price

High-Performance Marking Films

MACtac® 6600

- 2.0 MIL Thickness
- Polymeric cast opaque vinyl
- Permanent clearsolvent acrylic adhesive
- 78# bleached white Kraft liner: stability and layflat
- 63 Gloss Colors, 22 Metallic Colors, 2 Matte Colors

Recommended Surfaces:

Flat or Curved Complex Curves Rivets

MACtac® 9800PRO

- 2.8 MIL Thickness
- Polymeric calendared vinyl alternative to cast
- Permanent solvent acrylic adhesive
- 83# bleached white Kraft liner: stability and layflat
- 50 Gloss Colors, 6 Luminous Colors, 2 Matte Colors

Recommended Surfaces:

Flat or Curved Rivets

MACtac® 9700PRO

- 3.0 MIL Thickness
- Polymeric calendared translucent vinyl
- Consistent day/night color
- Permanent solvent acrylic adhesive
- 83# bleached white Kraft line: stability and layflat
- Choose from 2 Matte Colors

Recommended Surfaces:

Flat or Curved

MACtac® TuningFilms Carbon Fiber BF

- 6.9 MIL Thickness
- Trendy carbon fiber texture
- B*free® air-egress permanent acrylic adhesive
- 80# polycoated layflat liner: stability and layflat
- Choose from 5 colors

Recommended Surfaces:

Flat or Curved

MACtac® TuningFilms Iridescent

- 2.4 MIL Thickness
- Ultra conformable cast vinyl that changes colors
- Low tack high performance acrylic adhesive
- 78# bleached white Kraft liner forstability and layflat
- Choose from 3 colors

Recommended Surfaces:

Flat or Curved Complex Curves Rivets

MACtac® TuningFilms Textured

- 8.7 MIL Thickness
- Soft structured cast vinyl in black leather or silver moon finishes
- Low tack high performance acrylic adhesive
- 83# bleached white Kraft liner for stability and layflat
- Choose from 2 colors/finishes

Recommended Surfaces:

Flat or Curved

MACtac® TuningFilms Metal BF

- 5.5 MIL Thickness
- Embossed polymeric vinyl looks like metal
- Permanent acrylic adhesive
- 90# polycoated layflat liner
- Choose from 5 colors/finishes

Recommended Surfaces:

Flat or Curved

MACtac® TuningFilms Sublime BF

- 3.9 MIL Thickness
- Polymeric calendared vinyl changes vehicle color
- B*free air-egress permanent acrylic adhesive
- 83# bleached white Kraft liner forstability and layflat
- 15 Matte Colors, 15 Gloss Colors

Recommended Surfaces:

Flat or Curved

Intermediate Marking Films

MACtac® 8900PRO

- 2.8 MIL Thickness
- Calendared vinyl
- Adhesive removes cleanly up to 2 years from most surfaces
- 83# bleached white Kraft liner: stability and layflat
- 54 Matte Colors, 2 Gloss Colors

Recommended Surfaces:

Flat or Curved

MACtac® 8300PRO

- 2.8 MIL Thickness
- Highest gloss in the industry
- Permanent solvent acrylic adhesive
- 83# bleached white Kraft liner for stability and layflat
- 51 Gloss Colors, 2 Matte Colors

Recommended Surfaces:

Flat or Curved

MACtac® 8300PRO

- 2.8 MIL Thickness
- Highest gloss in the industry
- Permanent solvent acrylic adhesive
- 83# bleached white Kraft liner for stability and layflat
- 51 Gloss Colors, 2 Matte Colors

Recommended Surfaces:

Flat or Curved

MACtac® 600 Decor

- 1.5 MIL Thickness
- Transparent polyester film in decorative patterns
- Ultra clear permanent solvent acrylic adhesive
- Highly stable 1.5-mil clear polyester liner
- Choose from 4 Designs

Recommended Surfaces:

Flat or Curved

MACtac® 700 Decor

- 3.0 MIL Thickness
- Polymeric translucent color vinyl
- Consistent day/night color
- Permanent transparent solvent acrylic adhesive
- 83# bleached white Kraft liner: stability and layflat
- 5 Matte Colors, 2 Matte Finishes

Recommended Surfaces:

Flat or Curved

MACtac® MACrystal 8400

- 3.1 MIL Thickness
- Glossy translucent vinyl with color uniformity
- Permanent transparent acrylic adhesive
- 83# bleached white Kraft liner: stability and layflat
- Choose from 16 colors

Recommended Surfaces:

Flat or Curved

Specialty Marking Films

MACtac® 5700

- 6.0 Mil thickness
- 7 Colors
- Reflective polymeric film with excellent night and day visibility

Recommended Surfaces:

Flat or Curved Complex Curves Rivets

MACtac® 6400

- 2.0 Mil thickness
- 14 Lustre Colors
- Polymeric cast vinyl

Laminators

Most Popular

Royal Sovereign 55" Cold Roll Laminator

The compact design and features make the RSC-1401CW laminator the ideal cold laminator for the Sign Shop. Combine this laminator with your 54 inch inkjet printer and you will be able to provide endless finishing solutions.

- Easy to use digital controls
- Quick notch system for gap adjustment and auto-grip hubs allow for quick and easy replacement of rolled films
- Compact design
- Document guides for straight feeding of material
- Rear cross cutter for removing laminated documents
- Rear wind-up assembly included
- Easy load film supply shafts
- High quality silicone rubber rollers
- Maximum laminating width 55 inches
- Mounting up to 1 inch thick
- Dust cover included

Trimmers

Royal Sovereign Electric Trimmers

These electric trimmers are designed to easily and professionally finish wide format graphics. Save time and effort with this reliable electric trimming system that provides smooth, clean cuts on a wide variety of substrates, such as signs, posters, and laminated materials.

- Fast cutting with up to 6.6ft/sec blade speed helps reduce trimming time compared to using manual trimmers
- The bidirectional self-sharpening rotary blade easily cuts material in both directions
- Trimming is made easy using the long activation bar running the length of the unit to activate the cutting blade
- Use the included foot pedal for hands-free operation
- Wastecatcher collects scrap trimmings to reduce mess and speed up clean up times
- Add optional roll holder to aid in trimming long rolls of material

Model	Description	List Price
RET 1500	59" Electric Trimmer	\$2933
RET 2000	78" Electric Trimmer	\$3350
RET 2500	98" Electric Trimmer	\$3817

Laminator Accessories

Front Feed Assembly for 1400 & 1401 Series Laminators

The Royal Sovereign front feed assembly is an optional accessory designed for both the 1400 and 1401 series laminators. This assembly will support a large roll of printed material straight from your inkjet printer. Perfect for Vehicle Wrap applications or when long lengths of material are being laminated.

- Easily attaches to the front of the laminator
- Reduces kinking or other damage to roll printed material
- Less handling of roll printed material
- Can be used as an additional film supply shaft

Model	List Price
RSFF-1400A	\$320

Front Feed Assembly for 1650 & 1651 Series Laminators

The Royal Sovereign front feed assembly is an optional accessory designed for both the 1650 and 1651 series laminators. This assembly will support a large roll of printed material straight from your inkjet printer. Perfect for vehicle wrap applications or when long lengths of material are being laminated.

- Easily attaches to the front of the laminator
- Reduces kinking or other damage to roll printed material
- Less handling of roll printed material
- Can be used as an additional film supply shaft

Model	List Price
RSFF-1650A	\$337

Rear Wind Up Assembly for 1650 Series

The Royal Sovereign Rear Wind Up assembly is an optional accessory designed for our 1650 series laminators. This assembly will wind up long runs of material after laminating. Perfect for Vehicle Wrap applications or when long lengths of material are being laminated. No more having finished material falling to the floor where it could become kinked, scratched or damaged after the lamination process when long lengths of material are being laminated.

- Easy attaches to the rear of the laminator
- Reduces kinking or other damage to laminated material
- Less dust and dirt build up usually caused by material touching the floor
- Reduces time and handling in the cutting room
- Clutch geared for speed control

Model	List Price
RSWU-16508	\$557

Trimmer Accessories

Roll Holder for Royal Sovereign Electric Trimmers

The Royal Sovereign front roll holder is an optional accessory designed for the 59", 78", and 98" Royal Sovereign Electric Trimmers.

Print Media Accessories

Print Head Wipes

These polyester knit, lint free wipes are specifically designed to clean print heads and other sensitive areas in the printing industry. They are cleanroom processed and suitable for many critical environments in addition to the printing industry.

- Continuous polyester fibers help prevent loose fibers and particle emissions
- Cleanroom laundered, individually inspected and packaged in two clean room bags
- Absorbent
- Abrasion resistant to rough surfaces and burs
- Low in nonvolatile residue and ionic levels
- Standard and heavy weights available

Item #	Version	Size	Wipes/Bag	Bags/Case
VS20-99	Heavy Weight	9" x 9"	150	10
VS10-99	Standard Weight	9" x 9"	150	10

Print Head Cleaning Swabs

Using Print Head Cleaning Swabs will help improve the quality of your prints and extend the life of your print heads. Print heads are extremely sensitive to dust, dirt, ink residues and other contaminants. If not cleaned on a regular basis, they will not print properly which will result in illegible characters, streaks and other imperfections. To extend the life of your print head and to print better, use our swabs to clean your print heads on a regular basis.

Item #	Version	Size	Swabs/Bag
C8002.50	Polypropylene Shaft/Foam Tip	5"	50
C8006	Polypropylene Shaft/Foam Tip	6"	100

RollePro

The once time-consuming process of rolling vinyl over rivets and contours is cut down to seconds with the RollePro! It's ergonomic design and specially formulated heat-resistant wheel brings speed and comfort to installation.

The Rollepro works in three easy steps:

- Leave an open un-squeezed air channel over a row of rivets or around any contoured surface.
- Use heat gun or preferably a torch; heat the loose vinyl over that area between 180-200 degrees.
- Roll down the vinyl in one smooth motion- It's that easy!

Royalty-free Images

- Choose from Up to 2 million images
- Photos, vehicle templates, vinyl-ready vectors, illustrations and vehicle wraps
- Contains the work of professional photographers and illustrators
- All models fully released for commercial use
- Super high-res photos – many up to 55MB
- Download up to 50 files each and every week
- Constantly updated with new images and vehicles, over 600,000 images added this year alone!

Visit www.davinci-technologies.com for more information

SealItPen

A fast, simple answer to your edge sealing problems with SignGold and other vinyl applications that require edge protection from washing, polishing, and excessive physical contact

- Filled with ONE SHOT brand 4005 UV blocker acrylic clear, for a fast drying (15 minutes), long lasting edge seal
- Each pen will seal approximately 10 sets of truck doors
- Compatible with all vinyl's, thermal, and digital prints. Simply follow the instructions that are included with each SEALITPEN for your specific application

Banner Ups - Regular / Clear

- Make your own banner blanks instantly. No special tools required!
- Stronger than grommets because they spread the stress of high winds over a much larger surface area
- Wind tunnel tested. Banners made with Banner Ups® withstood sustained winds of 50-70 miles per hour!
- Sticks to virtually all common banner media including scrim vinyl, Tyvek®, Valeron®, polyethylene, polypropylene, Foamcore®, Coroplast®, and many others
- Banner Ups® have 1001 uses. They can be used any time you need a fastener for fabric or film.

Item #	Version	Size	Tabs/Bag	Bags/Case
BAN001	Regular (White)	2.0" x 5.75"	100	5
BAN003	Clear	9" x 9"	150	10

PowerTabs - Clear

- Use Banner Ups PowerTabs® to turn your digital image into a super-strong outdoor banner – instantly!
- Crystal Clear PowerTabs® let your color image shine through. Super strong for outdoor use
- No sewing, grommeting or special tools required!
- Use PowerTabs® with virtually any banner media, Tyvek®, Coroplast®, Foamcore®, scrim vinyl, or paper
- For outdoor banners over 8 feet, add PowerTape® for ultimate strength

Item #	Version	Size	Tabs/Bag	Bags/Case
BAN014	Clear	2.125" x 5.5"	100	5

PowerTape

- Use PowerTape® to create a super strong banner of any length
- Single-sided super strong film. No need to fold hem
- Duplicates the strength of folded hem and double-sided banner tape, but eliminates the hassle!
- Eliminate the risk of damage to image by post-print sewing
- Create a perfectly sharp digital banner. No rippled edge hem
- Fabricate a mighty banner in only 3 minutes!

Item #	Size	Roll	Rolls/Case
PTAPE	1.5" wide x 36 yard length	36 yards	5

MegaTape

- Even greater strength than traditional PowerTape® (withstood winds of 98+MPH in wind tunnel tests!)
- Produces a fold-finished banner edge for customers who prefer that look
- Easy to apply. Wears like steel!
- Much cleaner appearance and twice as strong as ordinary double-sided banner hem tape
- May be used for double sided banners. Since the hem is folded the tape is hidden inside

Item #	Size	Roll	Rolls/Case
MEGAT-APE	1.5" wide x 30 yard length	30 yards	5

PowerPunch

PowerPunch cuts cleanly through Banner Ups® PowerTabs®, PowerTape®, and heavy duty banner substrates. This innovative tool has a replaceable punch that ensures long term durability far greater than paper punches or single-hole dies, which become dull quickly. Due to its relatively small size and light weight PowerPunch is completely portable and significantly lower in cost than benchtop grommet presses. The tool will cut substrates up to 1/8 thick and is properly sized to make center-hole cuts in PowerTabs.
